Projects

Zuri Chat ⬀   (View GitHub)   08/2021 - **present**

- An open source messaging platform for organizations, which offers games, music and more functionality via a plugin system.
- Worked on the user interface of the Company Deadlines plugin using ReactJs, TailwindCSS and HeadlessUI.
- Added auto-suggestion feature for search filters in the top bar of the main application.
- Helped new contributors settle in and set-up, as a member of the community management team.

HomeTeach ⬀   (View GitHub)   06/2021 - 07/2021

- An online educational platform that connects students to tutors. I worked on the cart functionality and part of the user interface.
